Summary

Undergraduate student majoring in Data Science and Big Data Technology at South China University of Technology. GPA 3.77/4.0. Passionate about deep learning, reinforcement learning, and LLM applications.

Education

Bachelor South China University of Technology , Data Science and Big Data Technology	Guangzhou, China
• GPA: 3.77/4.0	Sept 2023 – present
• Core courses: C++ Programming (4.0), Python (4.0), Calculus (4.0), Computer Networks (4.0), Database Systems (4.0), Operating Systems (4.0), LLM & AI (4.0)	

Projects

AI Mathematical Olympiad - Progress Prize 2	Kaggle Silver Medal
• Trained SFT model on 4K math reasoning data with LoRA fine-tuning on Deepseek-R1-Distill-Qwen-14B, achieving ~8% accuracy improvement	Apr 2025 – present
• Built 2K DPO preference data to optimize for correct and shorter outputs, gaining ~2% accuracy with ~8% shorter output length	
• Ranked 78th out of 2214 teams, earning a Kaggle Silver Medal	
LLM & AI Engineering: College Intelligent Assistant	May 2025 – present
• Designed intent recognition and query rewriting modules, improving student satisfaction to 96% (+18% over baseline)	
• Built hybrid retrieval framework with chunk-based semantic segmentation, multi-path recall, and reranking	
• Used self-instruct strategy to generate 10K+ SFT samples, fine-tuned Qwen2.5-14B-Instruct with LoRA	
• Achieved 1st place in course project evaluation	

Publications

MARGA: Multi-agent Relative Geometric-aware Attention with Entropy-sequential Decision for Team Orienteering Problem	Aug 2025
Yu-Feng Li	
(IEEE T-ASE (conditionally accepted))	

Experience

National University of Singapore , Summer School - Distinction	July 2024 – July 2024
	1 month

Awards

- 2024 Future Technology Taihu Scholarship - Innovation Award (5000 RMB)
- 2024 MCM/ICM Honorable Mention

Skills

Programming: C++, Python

AI/ML: Deep Learning, Reinforcement Learning, LLM Fine-tuning (LoRA, SFT, DPO)

Languages: English (CET-4: 640, CET-6: 530)
